Bea Alyssa Lugtu

Caloocan City, Metro Manila | 09637321742 | lugtubealyssa@gmail.com

EXPERIENCE

Full-Stack Developer (*Freelance*) **January 2025 – December 2025**
J5 Pharmacy https://j5pharmacy-frontend.vercel.app/ *Caloocan, City*

- Developed a **Pharmacy Management System (PMS), POS**, and **e-commerce** platform **using React.js, TypeScript, Node.js, Express**, and **Sanity.io CMS**, enabling staff to manage transactions, inventory, product content, and online sales.
- Designed **responsive admin dashboards** for product listings, customer data, promotions, and reporting.
- Automated **inventory tracking** and improved collaboration with **5+ stakeholders**, reducing manual workload by **50%** and post-release bugs by **30%**.

Software Developer Intern **May 2025 – July 2025**
Sollertia Inc. https://www.sollertiainc.com/ *Quezon, City*

- Built **PHP-based CRUD modules** for the internal CMS, tailored to client-specific content workflows.
- Redesigned and upgraded a **Flutter mobile app**, enhancing **UI/UX and performance**.
- Synced mobile features with **CMS functionality** and assisted in debugging, ensuring clean, maintainable code across web and mobile platforms.

PROJECTS

Software Engineer & AI Specialist **August 2025 – March 2026**
ResQWave https://resqwave.vercel.app/ *Caloocan, City*

- Developed **LoRa-powered** community **emergency terminals** and a **decision support system**, deployed in a barangay serving **200+ households** across multiple **communities**
- Implemented **AI-assisted** analysis of incoming distress alerts using **Gemini** and a **RAG framework** with historical weather data, supporting emergency validation and prioritization.
- Built web and mobile dashboards with map visualization, rescue reporting, terminal management, and dynamic content via **Sanity.io CMS**, integrating **LoRa sensors** using **React, TypeScript, Node.js, PostgreSQL**.

Full-Stack Developer **November 2024 – April 2025**
Duel Learn https://duel-learn.vercel.app/ *Caloocan, City*

- Developed an **OCR-based AI platform** that generates questions from study materials for **50+ users** using **React.js, TypeScript, Node.js, and Express.**
- Built interactive features like flashcards, quizzes, and **gamification** elements to boost engagement.
- Designed **REST APIs** for authentication, data management, and **AI-powered** content generation.

EDUCATION

University of Caloocan City **2026**
Bachelor of Science in Computer Science *Caloocan, City*

- *Dean's List*

SKILLS AND CERTIFICATIONS

Certifications:

- Harvard's CS50: *Introduction to Computer Science* | FastAPI Webinar (University of Caloocan City) | No-Code AI Agent Builder (Simplilearn) | JavaScript Algorithms & Data Structures (freeCodeCamp)
